Curriculum Vitae

Euler Lorenzo Romero Chagua

Product Specialist | Monitoring & Cybersecurity

elromeroch98@gmail.com · (+51) 970-551-301 · GitHub: github.com/eulex152 · Lima, Peru

---

Professional profile: Bachelor's degree holder in Systems Engineering with more than four years of experience monitoring and analyzing data from enterprise services (ELK, APIs, Python, Java, Bash). Complementary training in cybersecurity (Google Cybersecurity, Coursera), risk management, information security and regulatory compliance (ISO 27001, ISO 37001). My goal is to work in an organization where I can design and develop high-impact technology solutions, protect its information assets, collaborate with multidisciplinary teams and optimize processes through modern technologies, always prioritizing quality and innovation.

Education

[April 2016 — November 2023]

Degree: Bachelor's Degree in Systems Engineering
Location: Universidad Nacional Federico Villarreal, Lima, Peru

Work Experience

[May 2022 — Present]

Position: Product Specialist
Location: Wisevision SAC, Lima, Peru

Monitoring and analysis of clients' service data using non-relational databases such as ELK, API connections, and programming in Python, Java and Bash to streamline and speed up the processes carried out in the Monitoring Area.

[February 2022 — April 2022]

Position: Professional Intern
Location: Wisevision SAC, Lima, Peru

Monitoring and analysis of clients' service data using non-relational databases such as ELK and API connections to streamline and speed up the processes carried out in the Monitoring Area.

[April 2021 — July 2021]

Position: Pre-professional Intern
Location: Red de Salud Leoncio Prado (Leoncio Prado Health Network), Huánuco - Tingo María, Peru

- Used MySQL Workbench for the Health Network's database.
- Used the Health Network's SIGA system for reporting.
- Used Laravel to develop a CRUD application for the Health Network.

Training and other courses

[September 2026]

AUTOMATE CYBERSECURITY TASKS WITH PYTHON
Google · Coursera
Automating security tasks with Python: file handling, log analysis, regular expressions and code debugging. (Verification ID: 7ZXAVBASIKDH)

[September 2026]

PUT IT TO WORK: PREPARE FOR CYBERSECURITY JOBS
Google · Coursera
Incident escalation, communicating with stakeholders and preparing for cybersecurity analyst roles. (Verification ID: 1D0XRA72B3EY)

[September 2026]

ACCELERATE YOUR JOB SEARCH WITH AI
Google · Coursera
Using artificial intelligence tools to optimize the job search, the CV and interview preparation. (Verification ID: UCG09NEU14AD)

[August 2026]

SOUND THE ALARM: DETECTION AND RESPONSE
Google · Coursera
Incident response lifecycle, network traffic analysis, intrusion detection systems (IDS) and use of SIEM tools. (Verification ID: 0125S6S9RJTE)

[August 2026]

ASSETS, THREATS, AND VULNERABILITIES
Google · Coursera
Identifying and classifying assets, analyzing threats and vulnerabilities, access controls and cryptography fundamentals. (Verification ID: EVEZIZ4UY2LD)

[July 2026]

CONNECT AND PROTECT: NETWORKS AND NETWORK SECURITY
Google · Coursera
Network architecture and protocols, types of network attacks and hardening techniques to protect networks and systems. (Verification ID: OZOQ6Y901WOC)

[July 2026]

PLAY IT SAFE: MANAGE SECURITY RISKS
Google · Coursera
Security risk management applying frameworks such as the NIST CSF, security controls, audits and SIEM monitoring. (Verification ID: S5UW2COPKY62)

[June 2026]

FOUNDATIONS OF CYBERSECURITY
Google · Coursera
Cybersecurity fundamentals: the analyst role, main threats, the CIA triad (confidentiality, integrity and availability) and professional ethics. (Verification ID: CTWFZZ0UMMDY)

[January 2026]

INFORMATION SECURITY AWARENESS
Wisevision SAC
Information security training (ISO/IEC 27001:2022).

[January 2026]

COMPLIANCE FUNCTION
QUAMA Group Latam S.A.C.
Knowledge of designing and overseeing ethics and transparency policies. (2 instructional hours)

[December 2025]

RISK MANAGEMENT
QUAMA Group Latam S.A.C.
Ability to assess vulnerabilities and design preventive controls through "Risk Mitigation". (4 instructional hours)

[July 2025]

INTERPRETATION OF THE ISO 37001:2016 STANDARD (ANTI-BRIBERY)
QUAMA Group Latam S.A.C.
In-depth understanding of legal requirements and international standards, and strengthening of the compliance function. (2 instructional hours)

[January 2023]

INSTANA LEVEL 1 WORKSHOP (6 HOURS)
IBM Chile
Workshop held in Chile by IBM to learn, and be able to offer clients, the tools Instana provides in the enterprise software market.

[December 2017]

COMPUTER ASSEMBLY
Municipalidad de Lima (Lima City Hall)
Course on assembling and maintaining computer equipment at the MUNINET Digital Technology Platform (July to December 2017). (100 academic hours)

[November 2017]

MICROSOFT OFFICE FOR BUSINESS SPECIALIST
SENATI — CFP Luis Cáceres Graziani
Module of the School of Information Technology: applying Word, Excel, PowerPoint and Access in business environments (May to November 2017). (120 hours)

[June 2017] MICROSOFT EXCEL EXPERT
SENATI — CFP Luis Cáceres Graziani
Module of the School of Information Technology: advanced use of spreadsheets, formulas, functions and data analysis (February to June 2017). (90 hours)

[April 2017] BASIC MS OFFICE OPERATOR
SENATI — CFP Luis Cáceres Graziani
Module of the School of Information Technology: using Word, Excel and PowerPoint for office tasks (October 2016 to April 2017). (120 hours)

Technical skills

Software

- **Python:** strong command of the scientific stack (numpy, pandas, dask, matplotlib, requests, etc.); basic web development with Django; automation of cybersecurity tasks.
- **Java:** basic knowledge (DataFrame, JFreeChart, OkHttp).
- Basic knowledge of the Laravel PHP framework.
- Intermediate knowledge of the Linux shell, C++ and Git.
- Data analysis and administration with Elasticsearch (ELK).
- Basic knowledge of Splunk.

Cybersecurity and compliance

- Network security fundamentals, security risk management, assets, threats and vulnerabilities.
- Incident detection and response; log analysis and monitoring (SIEM).
- Frameworks and standards: ISO/IEC 27001, ISO 37001, compliance function.

Languages

[Currently] English — English Program for Youth and Adults
Instituto Cultural Peruano Norteamericano (ICPNA), Lima, Peru
Currently taking the Advanced 2 level.

[September 2025] English — Intermediate Program of English (completed)
Instituto Cultural Peruano Norteamericano (ICPNA), Lima, Peru
Certificate folio No. 107177.
